BV QUAD RIDERS - 2017

May 17, 2017, Minutes
Meeting commenced: 7:00 pm
Minutes from last meeting:
Members present: Ed, Bill, Dave (where's everyone else?)
Guest speaker for IMA: Eugene Bekkar
Treasurers Report: Read

Old Business:

- Dome Project. Talked to Brandy and Joanne at RSTBC and they still think that the Dome Project funding will come through and the front section will be done. Will find out for sure in June**. A Rec Site has been proposed for the Dome so that out of towners can overnight in this riding area.**

- Raffle idea (firewood saw) Gord and Dave are working on getting a Gaming License (registered) for this. This is A LOT of work, think we have paper work together now just need to submit for approval.

- ATVBC should we continue our membership with them? Since the last minutes were posted the executive has had no one voice an opinion one way or another? We have had 8 new memberships in the last month though. **No one voiced an opinion on subject.**

- Damage from Beavers to one of our Moricetown Bridges. Dave & Jackson rode out May 7th to assess bridges (see attached pictures). We will need a work bee to jack up and replace footings. **No Trail Directors to set a date, give plan of action or a list of materials.**

BV QUAD RIDERS - 2017

First bridge 6.8 km in good condition (bridge inspector pictured)

Second bridge 7.7 km not so good! Ramp should be slightly elevated not sloughing as pictured.

BV QUAD RIDERS - 2017

Ground support on right hand side is gone

BV QUAD RIDERS - 2017

Thanks to the vandals that chain sawed our sign off and threw it on the ground. That made it a lot safer!!!

BV QUAD RIDERS - 2017

New Business:

- Looking for ideas for signage that we can put at Trail Heads that advertises / promotes joining your local ATV Club. Please feel free to forward all ideas to your executive**. No ideas presented.**

- Moricetown / Suskwa Trail, talked to Brandy and Joanne about having trail registered. Any old paper work that may have been generated is gone and RSTBC says we have to start from square one again. Will leave for discussion at meeting. We must be careful about what we bite off for this year, our Dome Project may be sufficient. **Not enough present to have a consensus one way or another? RSTBC need to see documentation on why this area / trail is important to club? Why do we want it registered?**

- RSTBC would like to get to the Dome to have a look at the front side before work commences, and view possible locations for a potential Rec Site there. They also want to view the back loop past the Trappers Cabin when it is possible to have that added to the Dome Trail System. Moose Mountain may be part of RAMP and not accessible for us. **No volunteers to be part of this?**

- We need to schedule some rides. If everyone volunteered to take the club to one of their favorite spots we would have the summer covered. Pick a weekend and volunteer to lead the group on a ride. This way it doesn't put the onus on just a few. **Dave will take anyone wanting to go to Granaisle and Fish Hatchery via Fulton Lake tentatively May 27th will confirm and post shortly.**

Grants:

- Paperwork is out from ATVBC for grant money. Dave is working on getting it completed and sent in by June 1st. We would like to get an ATV Trailer for trail maintenance (i.e. Moricetown / Suskwa Bridge) and all of our other trails, plus proper signage, mile markers etc. for the Dome when the trail is completed as it is usually our Poker Run Trail**. Again no comment on if you think this is something to pursue or not? Am I wasting my time??**
