

BV QUAD RIDERS – June 2018 MINUTES

June 20, 2018

Meeting commenced:

Minutes from last meeting:

Members present: Ed, Bob, Harold, Bruce, Dave

Treasurers Report:

Old Business:

- Dome Project. Signs (mile markers) have been made and are ready to be put up this spring / summer. Harold gave the attending members an overview of the way he had laid out the signage for the Dome, and as we knew it would be his plan is well thought out. We will set up a work bee to accomplish this soon. We would like to get Lloyd's kiosk standing up again asap before we start another project. Thanks Harold, Great Work!!
- Damage from Beavers to one of our Moricetown / Suskwa Bridges. Nothing to report on this from our directors. *None of the members present had been to this to give a report. Anyone out in that area please take a picture or two for us.*

New Business:

- Dome Boardwalk upgrade. We posted a ride for June 10th on our website and 4 Club Members came out to go up the backside on Sunday June 10th to check snow pack conditions. The group were stopped by snow at the very top. We also talked to other riders that day who had attempted to go up front side it is also not do-able due to deep snow. Project will stay on hold for now. *The group present at the meeting said that many members do not check the website very often and because of this miss out on rides. It was discussed that we ask Bill (webmaster) if when a ride is posted on the website that all current members be notified in a blanket e-mail. We will ask Bill if he is willing to do this for us.*
- Raffle Tickets, we have 600 to sell. Anyone wanting to help contact Dave Tolton and he can issue you a book (s) of tickets. Power Ride Weekend will be Saturday September 8th this year and the draw is set for 1:00 pm on that day.

BV QUAD RIDERS – June 2018 MINUTES

WORK BEE, MONDAY JULY 1, 2018 9:00 am AT JONAS CREEK REC SITE

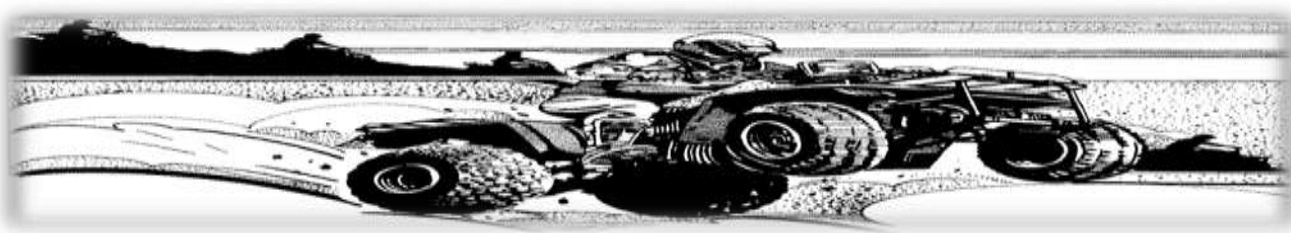

Volunteers are needed to help. If we get lots of help this will be a quick project and we can all enjoy the rest of our day 😊 We discussed placing a pole in between the two poplar trees behind kiosk and use a snatch block and ropes to get it standing up. We will then place it back on the brackets, bolt in place and add 6x6 arms for stabilizers that we will cement into the ground. Sounds simple enough lol!!

Tools and materials required;

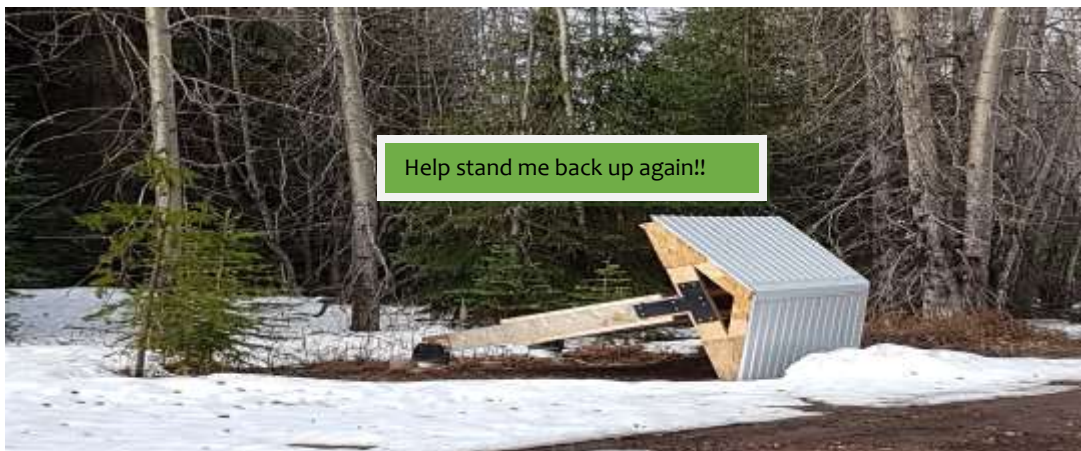

- ✓ 4 – 6x6 x8' posts, club will supply
 - ✓ Bags of cement, club will supply
 - ✓ Bolts, club will supply
 - ✓ We need a generator to run power tools (grinder) to remove old bolts and nuts.
 - ✓ Grinder(s)
 - ✓ Wheel barrow to mix cement in.
 - ✓ Shovels for excavation
 - ✓ Jerry cans of water to mix cement with.
 - ✓ Battery drills.
 - ✓ Possibly step ladders to get snatch block mounted up high.
 - ✓ Snatch block and ropes
 - ✓ ½ drill bit long enough to get through a 6x6 to re-bolt legs.
 - ✓ Let Dave know if you can supply / bring any of the required tools
